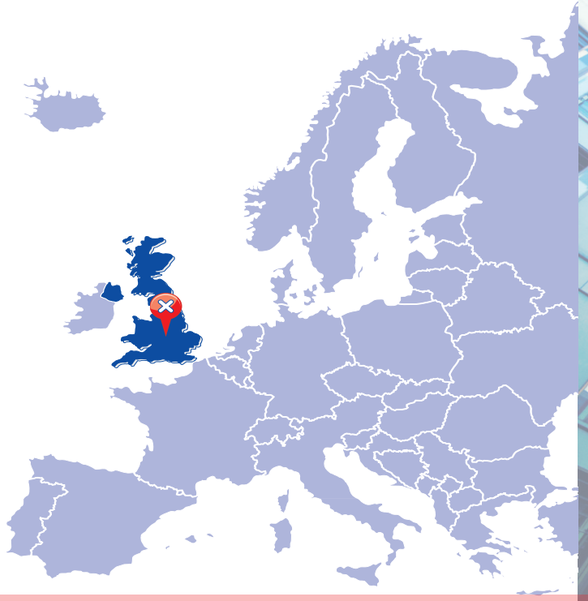
EBS

European Business Solutions

Trusted Advisers

Why EBS?

If you are looking for a UK partner that truly understands what your business needs then choose EBS.



Your access into the UK market

EBS wants to become your trusted adviser. Choose us to see how your successful UK market entry could become a reality.

EBS works exclusively with foreign-owned businesses in the UK and understands the problems you face. For successful expansion into the UK you need a partner that offers:

More engagement
EBS acts as a single point of contact so that all your needs are met to ensure compliance and a successful market entry.

More competence
We work with foreign businesses only.

More experience
We have worked with over 600 clients helping them establish and grow in the UK.

Better connections
EBS manages the UK Market Access Program, the most successful private sector inward investment and business development programme. It has access to a vast network of useful contacts that can offer additional support.

Better communications
Multi lingual team for seamless communications.

More expertise
Qualified experts with background in foreign markets and cultures.

EBS is a progressive UK business that was founded in 1991 to help companies wanting to set up in or export to the United Kingdom. The services that EBS offer have evolved over time to make them unique to other providers. We aim to provide you with a great service at all times.
